

THE LINE DRAWING PROJECT—

A TRANSFORMATIVE COLLABORATIVE DRAWING PROJECT ON INSTAGRAM

Date: ongoing

FOR IMMEDIATE RELEASE:

THE LINE DRAWING PROJECT initiated by THE LINE MIAMI is a continuous, global collaborative project currently shown on Instagram under @the_line_drawing_project. The idea behind it is to create a long transformative chain of drawings with other established artists. Each artist first copies/repeats/takes over one element of the previously posted drawing and then creates something new. In the project all works are drawings. Each posted drawing is a response to the previously posted drawing from a different artist.

Our aim is to have a minimum of 100 participants from all over the world. All participants shall be exceptional artists invited from our network.

A site specific installation with a morphing projection of the submitted works will be an end goal of the project. The exhibition will be a multi-media show, preferably in the form of a hologram. It shall represent the means of worldwide connections that are made through social media (Instagram) and simultaneously the virtual world of online media. Each artist remains an analog and independently working individual. The current project on Instagram aims to be a social media Exquisite Corpse in which all individuals get influenced by each other and form a big entity together.

THE LINE MIAMI is an artist collective aiming to connect artists for collaborative exhibitions, site specific projects and installations all over the globe. It shall also encourage creative exchange and skill development among the participants. The focus lies on contemporary, diverse and non traditional drawing in combination with other media.
